## Summary

Mechanical Engineering Student (EIT-eligible) with a CSWA certification and 2+ years of field experience in the energy and HVAC sectors. Proven track record in mechanical maintenance, CAD design, and cross-functional team leadership. Seeking to apply my skillset in a product development or manufacturing role (open to relocation)

## Education

### University of Alberta

*BSc in Mechanical Engineering*

**September 2021 - Expected May 2026**

*Edmonton, AB*

### Relevant Coursework

- Engineering Graphics & CAD
- Numerical Simulation in Design
- Design of Composites

## Projects

### Balloon-Launched Drone Platform | *Landing Zones Canada*

**December 2025**

- Led a cross-functional capstone team of 6 engineers through concept selection, requirements definition, and detailed design for a balloon-launched autonomous glider release platform
- Owned technical direction and task breakdown (SolidWorks Design, FEA/CFD Analysis, Documentation, Client Interactions), aligning weekly deliverables with client needs and course requirements
- Modeled complex mechanical assemblies in SolidWorks and produced ASME-compliant engineering drawings to facilitate high-fidelity prototyping and client hand-off

## Experience

### Canadian Natural Resources Limited (CNRL)

*Relief Operator Summer Student*

**May 2025 – August 2025**

*Bonnyville, AB*

- Executed preventative maintenance on high-pressure compressors and hydraulic power units to minimize downtime
- Oversaw remote mechanical systems collaborating with service providers to uphold health and safety protocols

### Cactus Club Café

**July 2024 – June 2025**

*Expeditor Lead*

*Edmonton, AB*

- Managed high-volume logistics and quality control for a team of 10+, resolving real-time operational bottlenecks in a fast-paced environment

### Trane Technologies

**May 2024 – August 2024**

*Sales Engineer Intern*

*Edmonton, AB*

- Interpreted complex HVAC schematics to select equipment for commercial projects valued at \$1M+, ensuring 100% technical compliance with design specifications
- Maintained relationships with design firms by assisting in HVAC system design and optimal equipment utilization

### Precision Drilling & Ensign Energy Services

**May 2022 – September 2023**

*Floorhand*

*Spirit River, AB & Kindersley, SK*

- Performed maintenance on critical equipment such as generators and fluid pumps, enhancing operational efficiency
- Maintained 100% HSE compliance during high-intensity 12-hour shifts in remote environments

## Awards

- **Junior Honors Design Award:** 1<sup>st</sup> Place, 2<sup>nd</sup> Year Design Competition

## Skills & Certifications

### Certifications

- CSWA
- H2S Alive
- Standard First Aid
- Fall Arrest

### Design & Simulation

- SolidWorks (*Advanced*)
- AutoCAD (*Familiar*)
- 3D Printing (*Intermediate*)

### Software and Analysis

- MATLAB (*Intermediate*)
- Microsoft Excel (*Intermediate*)
- Adobe Photoshop (*Basic*)

### Languages

- English (*Fluent*)
- French (*Proficient*)
- German (*Basic*)
